# PANTHERA AFRICA

Nestled in the heart of the beautiful Stanford Valley, a mere 2 hours from Cape Town, you will find this incredible sanctuary.

We are a true sanctuary where no hands-on interaction, breeding or trading takes place and we are proud to be one of the leading big cat sanctuaries in South Africa.

We are a blueprint of how a non-profit sanctuary, focusing on education, animal welfare and cooperation, can become self-sufficient.

We take pride in speaking on the animals' behalf.

## EDUCATIONAL VISITS

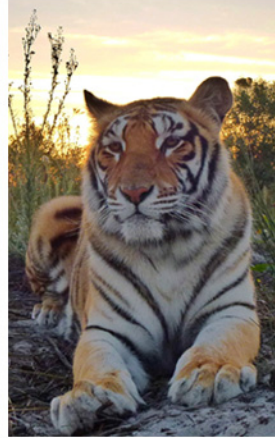

### *See, Hear and Enjoy Everything These Animals Have to Offer*

Come and visit Panthera Africa, and our knowledgeable and passionate staff will educate you on interesting facts about the different species and enlighten you on our animals' unique personalities and their heartfelt rescue stories. You will be able to see, hear and enjoy everything these animals have to offer. We strongly believe in the importance of educating you about the captive big cat industry and animal welfare and bring to your attention the truth behind the many breeding farms and cub petting facilities. We urge our visitors to become part of our pride and make a difference through their tourism choices.

## CHILDREN'S EDUCATIONAL VISITS

Child friendly visits for families with children under eight years can now enjoy a shorter educational visit at Panthera Africa. Spend time learning about lions, cheetah, tigers, leopards and caracals and meet our magnificent pride. Enjoy a morning with the big cats as your passionate host takes you around the enclosures and shares the fascinating stories and facts about each species. Your host will touch briefly on the big cat industry but avoid the adult topics of our regular educational visit.

## SUNSET VISITS

### *Experience The Big Cats At This Magical Time of Day*

Sunset is an enchanted time at Panthera Africa, and we love sharing this sacred time with our four-legged friends. We would like to invite you to join in this unique experience where you will get to hear all the animals' rescue stories, learn about their species as well as the truth behind the big cat industry while taking in the atmosphere of the day coming to an end. If you are lucky you will get to feel, hear and see the powerful roars of the lions! Come enjoy the early evening with your loved ones as the cats come alive after a long day of rest!

## ENRICHMENT VISITS

### *Join us for a two-hour excursion of play and excitement!*

During this unique experience you will work with a Panthera Africa animal keeper to create small enrichment items, which will be given to the big cats. Watch the cats run, jump and play as your handmade/pre-made toys bring joy and fun to their lives. Learn about the different types of enrichment, why we make them, and why it is so beneficial for captive animals. Listen in awe as your passionate host takes you around the big cat enclosures and tells you their inspiring and heartfelt rescue stories. Every Enrichment Visit is different, so you never know what unforgettable moments you will be able to capture on camera!

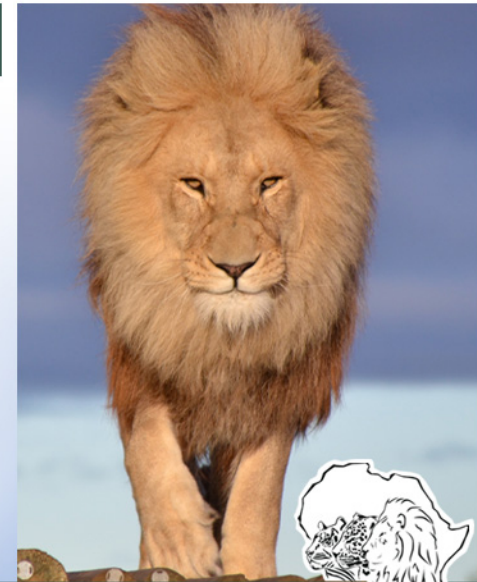

# A CONSCIOUS WALK THROUGH THE KINGDOM

## Get Inspired!

Experience a magical walk through the Panthera Africa kingdom where the stories of the animals will guide, inspire, and give you a deeper understanding into life's many experiences.

Through the animals' personal guidance, you are shown the peace and wisdom that lies within each and every one of us.

Cathrine S. Nyquist, the co-founder and director, is your host on this special journey and will share personal animal stories, as well as delve deeper into the conscious and energetic work the animals are doing for and with the project. A beautiful guided meditation will be shared with you and as the big cats bring out their powerful presence you will be inspired to open your hearts to love. We look forward to sharing this sacred visit with you.
